Issue 852

Date: February 16, 2017

Time: 4.30 pm

I open the Omega Portal again and I link with you, as I identify with my light energy self - and that is the beautiful body of light that each of you is. So, together, when we gather together there must be a great sphere of light that exists around us all.

Now identify with your body of light and allow your physical body to be comfortable wherever you are listening to this message and come with me to reconnect into the Station of Light, coming directly into the receiving area with me. I feel as if I am gathering everyone in together with my arms open wide to receive you and bring you into this area and to this state of consciousness. This state of consciousness you can access in your times of meditation and that time when you are just about to go to sleep and as you come out of sleep again there is the receptive state when you can receive images or messages. In this area where we gather together, the purpose is to receive energy and information from the Beings within this vast Station of Light and they in turn are connected into many groups and many different planetary stations and areas of civilisation. So, as I am ready now to open myself for the channelling, then perhaps you must make sure you are ready and open to receive.

“Welcome indeed, Beloved, into this space. Orem initially addressing you and I perceive the different areas that you have come from. I perceive some of which you are carrying in your thoughts about events and conditions that you exist in, or which you observe around the planet. Some of you also have come in observing different changes which have become apparent in your greater universe in the planetary systems around your Earth station, so many of you are very well connected into the energy grid and the streams of information coming through to you. The information is not just in written or spoken word. It does come in in the form of images and impulses and of course, all that we consider to be, and give to you as concepts, which you in turn interpret and are able to understand and accept and perhaps respond to, in particular ways.

Many of you are great creators and initiate change, even in ways around your personal environment and some of you indeed initiate change on a greater scale for many other people. All of this is important and relevant to your individual purpose. Around that greater purpose and intention is the underlying connectedness into universal creation and expression as it is helping the evolutionary process that Earth is going through. You are all well aware of this with significant changes in the Earth and also changes happening in your governing centres, governing bodies, that many of you focus upon. Others of you are focussing within this sphere of light and intention that we bring through to you. This allows you to bring through all that you align with from your point of origin and that will be creating change.

So, as we perceive you, we are drawing you as an individual to be with us and passing through a series of panels, some of which are similar to instrumentation which would assess your energy field as you pass through it. Some of it is to direct you into particular units available here with whom you work - units being groups of Beings. Over all - overview of all - is the Council of Light in attendance here for Earth planetary station.

We acknowledge there have been many beams of energy coming through to assist the stabilisation of Earth and also to support those of you in need and also with the intention of opening your awareness and your consciousness fields. You must be aware that together, when you have the intention, you can create change and all of this embodies information coming to you now to give you precise elements within you activated already and some still to be activated, which allow you to resonate with particular areas, perhaps particular coordinates you might feel, and some of those are to do with location on the planetary Earth grid and some are coordinates to do with dimensional shifts and changes.

These are what we are focusing on in this session, so being drawn together into the presence of the Council of Light - they are showing many of you these dimensional intersections and those unfold to allow many of you to present yourself into the necessary aspects of creation. To do this involves a process of releasing from your light energy bodies presented here, the patterns which are still appropriate for your introduction in the Earth process and environment. We are bringing you back into a core element of your presence and beingness here.

We are able to do this in this transmission because we have around the particular vehicle at the moment presenting this to you, a clear space, so we are focusing directly on the information aimed at a higher group of Beings drawn into this communication and some of these Beings are already stationed here within this Station of Light. Therefore, there has been a separation within your grouping here and already we are addressing in multi layers many of you who have come into this presentation.

Those of you who have come aligned from the Earth station are already being changed and your light body frequency is being harmonised with what is available here, so you may also be experiencing moving into a clearer state of consciousness here,

feeling yourself to be absolutely in tune with the aspect of energy frequency upon you here.

There is in creation, in manifestation, but in a higher state of manifestation than what is usually visible to your knowingness and your eyes, particular energy systems and places that have been created, separate to this Station of Light. What we refer to are particular stations which are connected and earthed into the Earth energy grid. They are maintaining a structure of light and communication around the planet. These are strengthening in their vibration and intensity and some are activated and they will create clear pockets of energy which will be termed, in your terminology, as safe places. Many of these will be expanded to include vast areas upon your planet. You can seek out these places, not with your usual searching and technology, but from your activated heart energy centre which has been expanded and this brought into you the strength and energy frequency of the crystalline energy. That helps you resonate with these particular light stations grounded within the Earth. They are also connected into the greater city of light existing around the planet.

By your intention, and of course that intention includes raising your energy frequency to resonate with the crystalline frequency, this draws you into these spaces we refer to. Experience this now. It is in a different form to how we have introduced you into the crystalline energy civilisation. There are multi dimensions even in that.

We are assessing you in this process to evaluate what is needed to be changed within you and also to assess the specific areas you would respond to. In turn this means you respond to different Beings who are coming into your planet to assist. You will understand from this that there are many steps involved in the change occurring around you. This is presented to you both to help you adjust to the higher frequency and also to reassure you about the process specifically for you and for those Beings you resonate with in a loving way. And you help each other.

Now, this has been intense and I am withdrawing you from the presence of the Council of Light and the Star Beings involved in that and together, we accompany you back into the receiving area of the Station. I have a Being here making himself known to you.

Orem out “

“Su Yan Ra here, Beloved. I reach out a hand to connect with you all and I surround you in the energy you may respond to it as an energy shielding around you and this is helping to clear out of your individual energy fields as a being in human form, some of the energy which disturbs the layers which protect you but which also connect you into the Cities of Light. I have been coming forward to some of you who have been sensing my presence as a tall blue being with you and I am with some of you for that purpose of keeping your energy field clear and strong of the disturbances in the natural electro magnetic energy field. You have your own natural energy field and this can become increasingly disturbed by what is available around your environments.

Draw around you this energy that I touch you with. Feel that it creates a shield around you now and this will also help protect you, because we have cleared out the previous amount and be assured that this allows the higher energy frequencies of light to come into you that are natural for your processes.

I am speaking to you both here in your light body consciousness and in your physicality awareness. There is adjustment occurring also for many of you, because your core energy field becomes blocked at times and I am able to clear that now, for many of you.

My presence has assisted you in this way in this meeting and I withdraw. I thank you. “

Lani speaking again and I thank Su Yan Ra and Orem and all other Beings who have been with us, with the Council of Light. So much has been presented to us in this session, but I am sure you will retain the experience.

I am also aware as I bring you to be fully conscious of this receiving area and also fully conscious that you are moving back to align with your physical body again, that there has been a shift occur in your core energy essence, which I relate to as being parallel to your spine. It is through this link that your light body consciousness reconnects into the layers of your physicality and before you become fully conscious of your body, be aware of your light body.

Now I am closing the Omega Portal on this transmission so please be fully aware of your surroundings and the current time and day. You may also retain the memory of the light stations connected in the Earth, just like great tall, high spires going well up into the atmosphere, glistening and glowing with light energy. There is much to remember from this session.

Thank you for taking part in this experience, I trust it will fill you with strength and light and health in every way.

Thank you
Lani
