Issue 889  
Date: November 2, 2017

Time: 4 pm

We are about to begin, so I open the Omega Portal today, asking you to be with me in spirit, in your Light Body, and then we are able to sense the presence of one another and to draw to us other Beings of Light stationed on Earth or in another dimension, who we resonate with and who will be part of this session. Therefore, lay aside all of your conscious mind thoughts and be with me in the receiving area of the Station of Light and this area is in another dimensional field of frequency, perfectly matching your Light Body frequency. In this state of consciousness, conscious awareness, you are very receptive to the images, the impressions, the words, the information which comes forward specifically to help you and generally to help us who are stationed here on Earth to bring in more light energy frequency and to validate the work that many of you are doing already.

Again, I ask you to be open to receive.

"In this space I greet you here Dear Ones. Ulea addressing you initially, welcoming you into this space.

We have many different spaces available to you which we can present to you in this Station and some of those spaces are in a different dimensional space. They may not necessarily be within this particular Station of Light.

Whatever comes to you in these sessions is relevant for you. We understand the different rates of progression that you as an individual will have, compared with other individual beings of light here, but you will receive just what is right for you in this space.

There is the understanding that many of you are experiencing disturbances in your physicality, or in your emotional states and we are here to help you align to the purpose and intention that you have to keep yourself clear. So, we begin by putting around you an energy field, a layer, a spectrum of energy, which has particular points of connection to areas of you. You were exposed to this particular energy matrix field in previous sessions and it has become necessary again to remind you of this and to bring you into connection with it again. There are elements around your energy field, visible in your light body, that need adjustment. Some areas need strengthening. Some areas need aligning. Some areas need to have coded frequencies activated. As you experience what I am bringing around you, the difference will be noticeable to you and also, if you are aware of your physical form, you will be experiencing that at the same time through the linkage.

Now, in this process there may become areas that are to be sectioned, or divided, into specific areas. We call these spatial definitions as some of those particular areas relate to different timelines that have become entangled with your present timeline, thus promoting disturbances in many different

ways. This is why it is necessary to work initially in this way with you.

Then, you are more able to comprehend what you are receiving in this Station.

Going beyond this information, already you may be perceiving that there is no Station, that you are consciousness, you are energy known as light, which is existing outside of the parameters of time and density - location, as you know it in your systems.

Here we speak of location which is recognised within your energy systems. Many of you have the feeling that you are not really at home in yourself and this is partly due to your presence on Earth being out of synchronisation with your consciousness. You are experiencing this time on Earth and when you are completely attuned and aligned and connected to your Point of Origin, you are receiving the timeline and the sense of location and being at home, from Source Energy, and you bring that into yourself. Therefore, you will be able to feel comfortably at home, knowing that your location extends from beyond where you are experiencing life on Earth planet, back to Source Creation.

If this is difficult for you to comprehend, let it sit with you and listen to the words and experience the sensation of drawing the energy in from your Point of Origin, which draws in Source Energy, in you and through you, deeply into your Light Body here which is pure light. This Light Body of you is responding to the frequency patterns delivered to you with these words and presentations through many of those of us who address you.

Every space you are drawn into, representing an area in the Station of Light, has a different energy frequency and it is a matter of timing as to when you are experiencing those different frequencies. The timing is not related to how you measure time. It is related to the amount of energy you can receive from the higher levels of consciousness.

We can now bring you forward to another portal and the portal which is open again is presented with the Beings known as the Star Elders and they are here with you.”

“As we move amongst you, principally we identify each one of you by your energy frequency and we are able to assess through this individual frequency you have brought into this space here, what is around you in your environment. In this way we are overseeing the pattern of evolution on Earth planet and there are many of you here who are open to receiving different types of energy to use - different concepts that you can identify as being able to use in your current life pattern for those ones around you. Without identifying specifics, you personally and individually understand when it is right for you to use the energy. Even amongst all of you assembled here, this energy is not able to be used by all of you.

It is indeed an aspect of you which knows completely what is relevant for you at this time. Every time you are presented into these areas, and also into the specific cities of light, you gain a different pattern and your Light Body utilises that pattern, sometimes to clearly enhance it and there may be other purposes.

This particular immersion into this space is giving you some potential concepts. In this space you are understanding it fully.

We would ask you to accept that as we draw you back from this portal. “

“Ulea again. I thank you for being with me Star Elder Beings, and the adjustments, and now it is that we will proceed together, assembling again in the receiving area of the Station. It is important at this time, because of its relevance to the necessities for you to continue enjoying your experience in the Earth plane.

You have been adjusted in many different layers here. Feel your Light Body here and feel what it is capable of enacting. In the concepts you have been receiving will be already coming up into your conscious mind some ways to use the energy, when especially you identify yourself as the Light Body form.

Also, remember you have been precisely linked into your location, that location being the pattern from Source Energy inherent in your consciousness.

This session has been giving you the experience of different dimensional aspects for you. Therefore, I am leaving you and I withdraw at this time.

As I do withdraw, I am with each of you, perceiving the developments around you, perceiving the frequency you have integrated and I am also making final adjustments.

This is what I was commissioned to do in this session for you.

Thank you

Ulea out “

Lani speaking again to you. Thank you Ulea and Star Elders and the other Beings. I sensed with the Star Elders, and even in this receiving area, the smaller Silver Light Beings, and I have come to understand that they have a great ability to help us because they understand the physical energy of us, and so they do come around at times when you have a need, when I have a need due to sensitivities! So, let's feel strengthened and aligned and connected by everything that has come through this portal today and through the portal into your own space.

It is time now to reconnect with your own space. Reconnect with your physical body space. Allow the energy to help you.

My impression is that there is a big change happening around Earth and you are involved in that.

I close the Omega Portal now,  
Thank you

*Lani*
