Issue 902

Date: February 15, 2018

Time 4.30 pm

I open the Omega Portal and welcome you again into this space and I link with you with the intention that we will gather together as a very strong, clear group and present ourselves into the receiving area of the Station of Light.

Here it can be as if we begin a fresh journey every time we enter this space, or it can be the strong feeling that this is so familiar, we come back to reconnect with friends. Whatever way it is for you, just feel welcome in this space, leaving aside all of the physical elements of your life and concerns, and feel yourself being free and joyful as you connect with us all in this space. Being free and joyful means that your vibration is already uplifted and operating at a higher frequency and that allows you to receive more of the information and energy which is presented to you in this way. As you maintain your energy in the higher frequency, you will understand more, and perhaps you will draw more into this space for us all.

So, I leave you here with the presence of those Beings stationed here who gather, and I withdraw into a deeper aspect of my own consciousness to allow the energy and communication to flow.

“Greetings to you Dear Ones, at this time. I am Ulea coming forth through the Station to greet you into this space, drawing you into the energy grid which exists around you and around all of the elements connected into the Earth planet station.

The energy grid, or matrix, as you may understand it to be, at this time is shifting and there are layers being connected in which allow communication between you and deeper areas of the Station and other Beings who have come forward observing and participating in the layers within the dimensions which are likened to the energy grid which are being gathered together and the connecting nodes are being aligned in such a way that it gives you greater access and freedom to the energy which you have been drawing to you and linking with you. At this time also, we are checking these linkages which are apparent around you each in this space.

Look around you and observe your companions here in this space and observe the matrix which exists around each of you in your light body form here. Your light body form may suddenly appear to you as much stronger and the connecting centres of it are being made apparent to you so that you understand that many of those centres directly connect into communication centres stationed throughout many dimensions around the planet, around this particular sector of creative universe.

It is important for you to realise that even though you may feel very minute, *[small]* you are important in this connection inter-dimensionally. The dimension you are in is expanding. The expansion, of course, connects you always into the Earth Light City and that state of consciousness which is an existence, is also manifesting more directly into your awareness, into your conscious mind.

Everywhere that you travel to in your daily activities - sense your proximity or your immersion within aspects of the Earth Light City and also sense whether you are connecting directly to that to bring it into your surroundings.

In many areas this may not be appropriate due to the surrounding energy and the concentration of people with certain intentions.

There are some powerful portals that give direct access to the Earth Light City structure and environment and as much as we can with certain individuals gathered here in this session, we are aligning you with a particular portal. It is a major access point which allows communication and movement between Earth Light City civilisation and your present condition. All of you receiving this energy session are being enveloped in that portal which allows you access. Become familiar with this. Know it is around you and surrounding you and thus you find that you will be able to identify this particular portal when it is necessary for you. We do not need to define a location for you, because this is a location in consciousness and it depends on your energy frequency and the alignment of your personal energy matrix as to where you will find this portal to resonate with and to enter through it. This has been drawn around you in this part of the session so that you become consciously aware of it and having made that aware connection, it is now for us to draw you deeper within aspects of the Station of Light.

The Station of Light of course is part of the Earth Light City, it is just that we direct your attention and focus and presence into layers within the Station and you may be experiencing this as if you are shifting deeper into the universe. The purpose of this at this time, is for your energy matrix again to be synchronised with some aspects that are coming to you in this deeper state of connection into universal consciousness, into the essence that is surrounding you from which all of this is emanating. This continues the process of adjusting your energy pattern throughout you.

We are giving you these opportunities in a sequence because you are the ones who have become aware that you are needed to remember the deeper aspect of your presence on Earth and to remember the way to activate many of the codes that are within your energy consciousness field.

You could be identifying this as work being undertaken throughout the energy field around the upper part of your body and this indeed is apparent to us - the aspects connected in the visible field that relates to your human form. Putting it into your language, it relates to your heart energy and your mind and the core processing of the connections between those two aspects. It is also enabling the stronger connection from Source Energy to pass through you. This session in particular, relates to the adjustment of all of this core energy for you and your energy matrix.

You will have been experiencing around you in your daily activities a sense of balance, a sense of peacefulness resulting from your connections to your point of origin and all of this energy that we continue to bring you into. Without being adjusted to the higher energy frequency, you would not be perceiving many of the aspects of change that are occurring within the dimension around the planet and as you progress with this, you will become more aware of the portals such as the one we have exposed you to earlier in this session to do with your access into the Earth Light City.

Continuing with that aspect of you in the Earth Light City, you are also here in another aspect within this part of the Station of Light here and you are drawing upon all of this in a conceptual form, because you do need to experience the energy before it is converted into interpretation and thus interpreted in a way that you put into action in your daily activities.

A way for you to do this, is to reconnect with your light body and higher self consciousness and ask to receive the energy and information needed for you each day and if that is required for you to contact people or to present something around you, it will be very clear to you. In this way you are certainly living your life connected into the higher resonating field of consciousness, so this is another step to remind you that your presence is important at this time and it is all in accordance with your willingness to receive the energy, putting aside all of emotions that might limit you from receiving the fulness of the energy.

You will also be aware of the communication network which appears as a bridge for you to move over and this is another way for you to reconnect to some of the different Beings who come forward to you personally, individually, in your own time, when you allow that space, when you open yourself to be aware of the communication and support around you.

As we give these moments to you of connection and you make that connection alongside us, then you have established the clear pathway which you can use in an ongoing way. There is a great gathering around you individually and collectively here, because you allowed yourself to receive the communication link. This also is a celebration time and acknowledgement time of you. You can take this into you and work with it in an ongoing way.

It is now that I am drawing you back to the receiving area of the Station.

You have been moved into various pathways during this presentation and you will need to explore these as you merge yourself again into the intention of this session. The energy moves around you and through you in many different ways and you may have been experiencing this as a new experience - something that you can relate to alongside anything that you may have witnessed in your daily life.

These concepts and visitations and experiences will become more frequent to you and you may be finding that in the future, what you have been visualising in these sessions will be created. That becomes confirmation that you are helping create that in the physical structure, bringing what you have experienced in the Earth Light City into the current situations that you have around you.

In this space now, in the receiving area, I withdraw, leaving you to complete the absorption of this, in a very joyful way

Ulea out “

Lani speaking to you again and my sense of Ulea's presentation today was that it was very powerful and business-like and busy - quite a lot of busy-ness in that energy matrix that you experienced. There is a lot to process before we receive the next weekly transmission.

It is time now for you to bring your awareness completely back into your physical form and surroundings.

You may feel the shift in the energy, or a response in the energy within your beautiful heart centre and the mental awareness, or perhaps aspects of the energy field in your mind or in your head in some way. The connecting points of heart and mind and body and the beautiful core energy essence flowing through you completely, as you bring yourself back into the present moment.

Thank you for being part of this and I end this transmission at this time through the Omega Portal.
