Issue 913

Date: May 3, 2018

Time 3 pm

Hello again and I open the Omega Portal and also identify myself as a Being of Light and in that way it is easy for me to bring you forward as your Light Body Self into gathering again within the receiving area of the Station of Light. It is almost like a separate dimension itself which has been created for us to gather within and to receive information that is beyond the usual topic of conversation on Earth and outside of the normal conditioning and normal activities that we participate in, on a daily basis.

As I say that, I do have to acknowledge the many people of you who are listening who have your own separate methods of attuning to the higher frequency patterns of light, energy and information.

So, here we are together just to participate in what is coming forward around us at the moment and we will be open to receive information that might be relevant to us today, and ongoing, of course. Allow yourself to be aware of your higher energy form here and have all of your perceptions open to receive, as we begin this session. I am aware of shifting patterns of energy around me, so we begin.

“Initially, Beloved, as we encompass you in the receiving position and energy frequency here, we introduce ourselves again as the greater collective here within the Station, coming forward from different dimensions to present ourselves to you, and again Orem addressing you in this space.

You are familiar with my energy. I am familiar with the energy of the human aspect and of your light being aspect which comes forward into this space. Of course, there are many different layers and dimensions to every one of you.

This is a meeting space which encompasses and links together many intersecting dimensions and as you are familiar with this space and even if you have newly discovered this way of information receiving, then this is open to you to participate in what comes forward. Generally we present you with certain information and we also can work with the energy layers which are around you and which you bring forward into this space. The clearer you become indicates there are fewer layers to be worked with, because as you clear many of the layers around you, you are open to re-establishing your own personal connections to the information coming through in the rays and pulses of energy through Source Creation.

We are just part of the system which transmutes it into a way that you can feel comfortable to receive it and you can experience it and also we are able to work with you to establish greater levels of communication and existence and patterns of existence within the established cities of light.

All of this is known to you. All of this becomes refreshed within the memory circuits and within the energy structure that we identify as you, in this space. Always we perceive the extension that is evident around your energy field which correlates to expansion of consciousness.

You may experience many times the expansion of you to encompass where you live, the country you are living in, the entire Earth planet and many other such dimensions and when you do encompass all of that, remember that you are encompassing it from the point of view as an expression of Source Creation.

We continue this journey of expansion. You may wish it to be a journey of exploration into what surrounds planet Earth. That would be a different aspect to what is brought forward to you in this state. We are here offering you opportunities to be clear enough so that when other opportunities are presented to you, you may consciously travel to other areas. You, however, are presently stationed on the Earth planetary system and as such, you are the vessel to bring in energy and information into consciousness. There is this continual reminder of this action to you and this is simply because there are different layers operating. Even as you are here in your light body, there are several different layers of you receiving, understanding, analysing, questioning. All of that is understood and accepted.

Everything that you participate in as you experience these visitations into the Station become part of you. Therefore, when we present you to the greater Council of Beings incorporating many different galaxies, states of consciousness, life forms, you participate in what is brought forth into the gathering of the Council. Some of this is to understand conditions that you experience individually on planet Earth. Consciously, you may retain many of the experiences personal to you and experiences you have received through visual presentations or other reports of happenings around the planet. All of that is incorporated in the presentation to the greater Councils here and so there is a pattern which can then be processed and adjusted, assessed from what you bring to this Council for consideration. Already you are presenting that, through aspects of Self here.

You would also find that the Council is very supportive of you.

You have been representing states of consciousness over many different time phases and shifts in dimensions, so this is why you have consciously reconnected to these levels of the Councils and in ways through this Station and other areas, other facilities available to you because all of you are experiencing dimensional shifts.

Again the opportunity is presented to you to come forward into the existence of the Earth Light City. Allow yourself to experience the sensations as you move into the frequency pattern of the Earth Light City and indeed, as you embrace that within all of your senses, you are bringing that into reality as you return to your present physical state and existence of that.

Your conscious mind would be wanting to receive facts, identify with particular segments of that existence. Continuing through all patterns of existence there are specific, fundamental actions. There is the overall action of assessing and changing and adjusting energy patterns and frequencies. There is the overall understanding of the field of resonance and within spaces such as the Earth Light City, there are areas that are of a very high frequency that is the basic underlying frequency of existence. In areas such as the Cities of Light you receive by your presence, a higher energy frequency and this indeed is different from what you exist in currently on the Earth station. When you fully adjust to what you are receiving in this Earth Light City, then you are more able to help the adjustments, just as you were commissioned to do so, in the Earth plane.

We referred in previous transmissions to balancing, harmonising, restoring out of balance phasic conditions and all of this you have become familiar with and you will have experienced in your own way, the aspects and the times when rebalancing was needed, when clearance was needed. When you experience the higher energy fields and levels of frequency here in the Earth Light City, you naturally can bring that through all of your consciousness into what is around you physically and as you do that,

visualise that going out in a wave form all around you. Your pattern of frequency as an individual is changing in accordance with the level of higher frequency you can absorb. Continual presentation assists that process as you continue to immerse yourself here in this state and we are present with you observing the process around you and through you. Before we withdraw you from this state, we envelope you in the particular field that is natural in this Earth Light City state, so that you will be able to carry it with out and already within this field that we have encompassed you in, we are able to bring you directly back into the receiving area of the Station.

Perceive the other Beings around you and you may perceive how they also are enveloped in a sphere of energy, very perceptible to you in this state. You are absorbing all of that within your light body system here and that of course is an integral part of your physical state, in your current life pattern.

Being aware that the gathering here within the Station has brought you in from many different areas from around the planet, then you may also extend that perception to seeing this higher energy frequency going to all areas of the planet. In the previous session we spoke about phases. In another previous session we spoke about different energy devices. Well, you have become that energy vessel, or device, also bringing in balance, light and energy and information. We perceive this with great joy and gratitude.

It does allow an opening into other dimensions in such a way that they will be available to you at the appropriate time and when it is necessary for you to understand more of what is coming forward from some of those dimensions and the portals.

For now, you have been exposed to a higher energy frequency which needs to be integrated, understood, by you and this is what I leave with you at this time, Beloved

Orem out “

Lani again here and I do thank you Orem for this again, wonderful presentation and I am sure each one of us has a different visual interpretation of the experience, as we all do with everything that we read or experience.

Now it is time to bring all of this back within you, as you return again to incorporate it all within the physical body known as you, today.

We have been on a journey out from Earth, out of time and into a different energy system and yet it is part of each and everyone of us.

So, as you have now connected again into your body, be aware of that beautiful field of energy which Orem encompassed you in and this will remain around you as long as you wish it to, as long as you can maintain the awareness of it. The purpose of it will be of assistance.

Now, the energy is complete for this transmission, so again I close the Omega Portal and withdraw at this time

Thank you everyone

Lani
