Gathering of Light Beings - Session 1

April 25, 2020

I am feeling to go within and my feeling is I am in a craft looking down on land not familiar to me in my country. It is earth-coloured, something like Uluru in central Australia or it could also be to do with the canyons and desert in North America and my presence is required.

There are many of us – it could be 100 to 200 – not that many of us really – we are all just standing and we all have a clear view of a group of beings in the center and they are talking about the Galaxies, the star field energy system and what is coming to the planet in terms of support, that support can be through people on vessels and that can also be with energy beams coming to Earth and touching Earth people –

“ and we have brought you here to tell you this, to illuminate the system that is around you in the midst of change and over-turning many of the outdated methods and ways to control people and to manipulate people. So, you will call this a wake up time in many different ways, many different opportunities coming to those of you who are here who are known as Starseeds to distribute more information to other people and to your known groups that you share information with.

This is nothing new. Many of you have been drawn into gatherings such as this for a few moments of immersion into the greater energetic system that you are all receiving much more data in an individual way because you will be aware that you each are receiving an individual issuance to you in the light ray touching upon you each. So you are comfortable receiving this because you are familiar with this.

At this time this individual has been shown this to share with you. Those moments when you feel you are stepping out of your time measurement are valuable because in that moment you are moving into situations such as this to experience more information being given to you and this was all that was necessary to give to you at this time.

Changes are forthcoming. There are people in prominent positions around the world who are aware of this information and are receiving it in a different form. Others will be presenting it in papers or face to face discussions and arising from that there will be changes in some of your worldwide laws and passageways and information dissemination.

It is all being updated collectively and you will be aware of this happening to you now continue, this updating state of shifting energy within each.

Take this into you.”

So now I'm feeling I'm withdrawing - everybody is receding out of this assembly area and I am aware that it must be dark where we have been taken to because I'm aware of seeing stars up in the night sky and I'm aware that I'm taking something into me, almost holding something and yet I know I am not holding something tangible. It gets absorbed into my energy field, and then I am back within the energy vessel for - to me it only seems an instant - and I'm back into my body, sitting in sunshine here in Auckland recording this.

I am going to have to take my time to absorb this, let my body take it all in and my realizations in my consciousness field and you be needing time to do that as well. It's a strong knowing as well of course that we have that this is all vital information and we will be able to implement change if we are some of those changemakers, or perhaps we need to witness it and just hold the awareness that there is a higher level at work amongst us all.

It has been lovely to share this with you and to experience it myself. Part of me is still in that group assembly, so you could experience this as well.

I don't see anyone specifically in the gathering chamber. Everyone is just like a very strong light, Golden light being, all humanoid form but just in our light bodies. That is how it is.

As I said, I am bringing this all back into my physicality unit, and that is what you are to do as well. You might be aware of it working in your greater expanded field of awareness around you, and that will give to you what is necessary for you to know, to receive, to do

Thank you *Lani*
