My Code of Ethics

The Omega Hypnosis Sessions are based on training and experience I have gained in the Omega consciousness journeys and the QHHTechnique. I cannot guarantee that you will go deeply into the somnambulistic state of trance consciousness, but you will always have an interesting and helpful session as you experience other trance states / levels of consciousness.

It is up to You to relax your conscious mind to allow your Sub Conscious / Higher Self /Source Energy which is always present, to come through to give you energy and information to help you.

I conduct my business according to the following code of ethics.

- A professional Hypnotherapist must conduct business in a responsible and respectable manner.
- A professional Hypnotherapist must recognise and uphold an obligation to the well-being of the client at all times.
- A professional Hypnotherapist must always practice techniques and procedures in accordance with appropriate training and experience.
- A professional Hypnotherapist must maintain safe and hygienic premises of practice.
- A professional Hypnotherapist will not offer any guarantee as to the effectiveness or outcome of any session.
- A professional Hypnotherapist will always keep a client's personal details private, unless required to divulge that information by law, or when any person may be at risk in any way.
