“Indeed, I address you in this gathering, dear one. This is Orem addressing you and you are used to my framework of energy, of the language I bring forward to you, the symbology and the energy field surrounding you all here. Feel this around you.

We do support you, those of us who observe you as we exist in this Station of Light dimension for you and because you are present here consciously and you have accepted your position here in this dimension, you will be aware of the shifts occurring both within your awareness and in your conscious thoughts and your perception will be deepening as you present yourself here.

This is for the purpose of assisting you in your conscious realization that there is a significant effect happening around the planet known as Earth to you people, and the effect is having the impetus to awaken many of you to stand up into a higher linkage, recognizing that what you are as an expression of a higher field of consciousness is much more than your physicality. It is much more than how you define yourself as a particular person, as a particular vehicle or instrument to perform certain actions in your livelihood and in your environment. We are referring to your essential state of consciousness which exists throughout time and as an essential state of consciousness, you experience life in many different aspects.

It has been brought to your attention that you co-exist in this moment as many different aspects of the original aspect of your creation, where you emerged from Source Energy consciousness field into a particular aspect of creation for the essential underlying purpose of what life is.

There are many layers to that. Many layers and lifetimes to experience, but they all have an underlying impetus of evolvement of moving into experience, and to evolve that experience of that time back to a higher state of consciousness.

As that occurs, there is the overall upliftment into a conscious state of support and growth throughout creation, of the manifested worlds created.

Now, your participation in the current phase has been uplifted as you are more consciously co-creating with an element of creation involved in clearness. We use the word clearness because this is familiar to you. A clear pathway. A clear passage through creation. In a wider sense, you will be understanding that Earth is moving through a passageway of creation and physically it is moving. Energetically it is moving in the sense that it has also come to a state of receiving an enveloping field of energy which is penetrating through the many constructs that Earth civilization has put up into the surrounding atmosphere.

Remember that there is the overlaying starfield matrix. We use starfield matrix because this brings to your attention that it is greater than man-made creations. It comes from the greater Galactic Federation existence. The Galactic Federation is part of the overall expansion of consciousness and assistance programming. There is the programming which is enveloping you each in the sense of not over-riding your conscious will, but the programming is set in motion for the upgrade of cellular functions, for the upgrade of the conscious layers, conscious interpretation and communication with a higher evolved set of Beings.

We are speaking about multi-dimensional existences again for you and you will be needing to identify the particular groups that you can feel are personally, individually, assisting you to progress. The progression ultimately leads you into the civilisations outlined to you already of the crystalline light cities. These encompass certain idealistic patterns and those idealistic patterns are resonating with a coherent field of awakened consciousness states. In the awakened consciousness coherent field there is always support and upliftment, new creations, so you would feel from that understanding there is no deliberate act to interfere with anyone else's pathway and progress.

### Omega Communications Portal Transmissions

Hello, Lani speaking to you and thank you for joining me for today's session.

Begin by relaxing your body, opening your mind so that you are in a receptive state and this is important because you will be receiving energy coming through the words and as you enter with me and many others joining us today in the Station of Light, you will be much more aware of the exchange of energy happening. It depends on your willingness to embrace the energy and to be present, as to how much you benefit from the session.,

This is how we begin today, by being conscious that you, an aspect of you is fully present in the receiving area of the Station of Light.

I consciously recede now to allow Commander Orem of the Station to come forward.

When you realise you are coexisting with this enveloping field of the Galactic Federation, then you will understand how you can be observing different states of consciousness from a viewpoint of understanding where other Beings are functioning from a different level of consciousness.

Observing from your higher connection enables more of that higher vital essence, the light field, to enter within your environment. Your environment may include the locality where you exist in a community, your country, and the entire planet. Feel that you are not limited, you are unlimited in the extent that you can embrace conscious life and in many ways you are understanding you are bringing in that higher life light energy construct.

At this time, as we observe you, we are seeing that your individual energy fields are taking in the higher light frequency pattern presented in gatherings such as this. This lifts you above what is occurring beneath the starfield energy matrix that people are connected in with, so as you maintain your awareness into the greater starfield matrix originating from Creative Source, then you will feel many layers of you coming into a stronger energy field and alignment. This is the main function today in this session that you are experiencing - this very strong attunement connection to that greater light field.

This will be strengthening you in many ways - many layers that you exist in. You will be conscious of your physicality, of the thoughts you have, of the emotional reactions you have and everything that is contained within that for your physical sustenance. As you take in this higher light field sustenance for you, you also will be aware that there is a greater separation that you experience from this state to what you may have been experiencing before you entered into this session. There is a level of elimination, of clearance, as well as the inflow that you are receiving.

You may have the sense that you have been transported to a different field of energy as you take in this vital essence for you in this aspect.

You may also be experiencing that you are recognizing different aspects of your life that are no longer serving you in your overall purpose for being present as a Conscious Being and this will be assisting you. Take this into you, and you may be experiencing a sense of fulfilment. You may be having different experiences that relate to specific needs that you had as you entered into this session.

You will feel the different layers settling into you as I now bring your attention back to focusing within the receiving area of the Station. You are moving through evolutionary processes into the manifested layers of existence that you would choose to be in, which are already with you. Encompass that. As you process that I withdraw now

*Orem out “*

’Acknowledged. We surround you in this presence in your presentation here in this receiving state and we are a collective of Beings generally identified to you as the Council of Light.

You will be feeling you are receiving a very strong field of light and many of you may be interpreting this as a golden field of energy system. We are doing this for the purpose that you can identify yourself as being enveloped in this particular light. This particular light also is part of the inner Earth existence and the Beings involved in the inner Earth at this present time are producing layers and fields of energy to assist people like yourself living upon Earth. You have been overcome and you have been surrounded by many different fields of identifying layers - people who want to identify you and keep you in a structure and keep you labelled as such and also the energy that has been enveloping in a very close layer around Earth is coming forward for the purpose of clearing some of the conditions that ones are experiencing.

Remember that many of the manifestations are brought upon by specific conditions that are not clean and clear and this is part of the particular state of civilisation and how they are viewing themselves and viewing controlling authorities.

This field that you are receiving is also strengthening the neuro-network throughout the earth energy field and throughout your personal energy field. This is to reassure you and so that you maintain this energy field closely around you. It is linked to the starfield matrix which you have as an individual field around you and particular points are intersecting with the energy field within you and this is all part of the energising structure necessary for you as you take in the sequences of light coming through the solar portal.

This was necessary to remind you of this again and we are grateful for your attention and we withdraw.”

This is Lani again and I thank those Beings, the Council of Light, the Galactic Beings and Orem.

It is now time for you to bring all of this back consciously connected into your body. Perhaps in this moment you will feel that energy field surrounding you. Personally, I feel it as a very intricate, fine, matrix of energy completely surrounding me, my own energy sphere and it is sparkles of golden light. This must be necessary for us at this time, so I am grateful for that.

Now, consciously be aware that you are back in your body, surrounded by this field of light energy and be aware of the day and time as you are receiving this.

This ends this session through the Omega Communications Portal.

Thank you. *Lani*
