Session 1042

Date: October 29, 2020

Time 7.45 am

Omega Communications Portal Transmissions

This is Lani with you for this experience. Are you ready? Are you in a quiet space? Is your mind still? Is your body relaxed?

As that happens and you take in a breath you are already shifting into the altered dimension of yourself, into an aspect of you we call your light body, and this is how we begin this session today.

We gather together in the receiving area of the Station of Light in that amazing formation. It possibly just appears around you, as if you were instantly transported into it and you materialized there.

This is how we begin today.

“Welcome Beloved. I am known as Orem to you and I draw you deeper into the energy field established here.

You may perceive that you have established yourself here in this energy sphere, remembering that you have your particular energy sphere with you. It is part of your energy field, it is an aspect of your consciousness and you, in your current body form, are presenting an aspect of your one consciousness into your living circumstances, into the Earth station planetoid as it is existing currently.

When we bring you into the Station situation you are regathering many aspects of the potential of all that is of your quantum aspects of Creation. This is important for you to fully realise and manifest and activate all of the aspects of the energy systems that are available to you in this way. It is important because as you manifest that in through your body, as you bring it in through all of the alternate programming that had been established in multiple civilisations on Earth, you are bringing in the pure level of manifesting the upgraded dimensional patterns of life, cities of light, patterns of light. Light exists as components of manifestation, of creation, and you merely bring in the aspects that you have a particular purpose or mission. Many people on Earth would call this your spiritual mission - your quantum purpose for being manifest in a physical body and creating change. You are creating change in a continuous way when you keep attuning to your potential in your original point of creation, that origin point. From that point where you were surrounded in the pure aspect of Creation and Consciousness, you perceived different areas that you could call planetoids in different star

systems where you could assist the process of enlightenment. In some areas you may have been present to initiate plant life, to initiate some guidelines for civilization for those who were not clearly attuned to their assignment and to the aspect of consciousness that is all about upliftment and expansion and enlivening with the presence of light.

There is more to understand about that word “light”, however, in your inherent resonating field you already comprehend the quantum consciousness of what that is. It is an understanding that is present. It is a knowing that is present in your quantum presence. This is what is required.

Now bringing your attention into the Federation of Galactic Beings who exist and who are very strongly present in the dimensions around Earth currently, you then are communicating into that level, beyond what you might call disturbances being enacted on Planet Earth for various reasons and purposes. The Galactic Federation and the overseeing Council of Light are present in a coordination fashion. That phrase would help you understand the presence there. There are many patterns being created in the layers of the energy field surrounding the planet, the moon and extending throughout your known planetary galaxy that Earth is known to be in currently and so many disturbances have been created through the presentation of vehicles moving through it. The quantum field is able to reform to establish that system of light and the quantum connection throughout creation and part of the Galactic Federation presence is participating in that, to ensure that there is the coordinated work, coordinated connections so that ultimately the resonating field that is available within and around you individually is able to clearly resonate with the galactic presence, with that quantum consciousness system.

You are all within that system, and yet you understand you have free will to choose the exact pathway, the exact places that you would manifest for yourself to enter within.

You are free to choose the connected groups or communication level. When you continue to resonate with your original point of existence, you find there are greater areas you connect with and your level of energy systems and functioning within your own physicality and all that means increases. It is termed upliftment. You engage in a greater field of that consciousness and you expand into that.

These words come through to you in the particular realization, the connection times, your point of awareness when you are ready to resonate with them. The resonating aspect creates more activation within your energy field and that also is part of your expansion and upliftment. In effect, we are helping that process, so we have not uplifted you or disengaged you from the Earth energy system, but we have allowed you to resonate with the exact frequency where at times you experience upliftment and transportation to other energy stations and other planetoids and other dimensional beings that you may term extra-terrestrial because they are not originated in the Earth dimension, or from the Earth dimension.

This is all significant for you as you progress with your connections and expansion.

This may be settling within you through these energy words delivered to you and the pattern you are already engaging through your light body presence here into your physical form and the energy aspects of that form and there you have received the fulness of this energy system you have been presented into, in this session. Engage it all within you, Beloved.

I withdraw now

Orem out “

“I am present with you, continuing our energy system and support for you, known as AnTur and I am present within the Station at this point of connection with you.

This is helping you to facilitate what you have been experiencing in between sessions and ongoing for you. I refer especially to your awareness of the dimensional civilization which is manifesting around you and you may already have been experiencing shifts in your perception to realise the energy fields different around you. Even in your living space and in your outdoor spaces you will have been perceiving the shifting energy field. So, in preparation for the greater revealing of this to you as you resonate with it, you will see emerging new types of formation for living spaces appearing, manifesting. You may sense it is coming from the past or you might sense it is coming from the future and yet it is all present, because this is the quantum presence that you are experiencing and resonating with.

This was what I wanted to prepare you for at this time.

AnTur out “

Thank you AnTur and Orem and all of the Galactic Federation Beings.

Lani speaking to you again, combined with Ulea. She is often quite strongly present with me and this is why I present the two of us together, because she influences what I present to you and in this way we assist you to bring all of this energy system into you as you are still within the receiving area of the Station - and this happens in an instant, and now we assist you to bring this back into your body.

Take in a breath of the vital air that you breathe in and it must be connected in, in a conscious way. Every breath you take in, consciously take in the exact purified elements that you need to breathe in. Even if you were in a heavily polluted atmosphere, by your choice you breathe in pure vital essence through the air you breathe in.

Now anchor all of this into your body, particularly aware of your energy centres in your head, in your heart energy centre and in your solar plexus centre and all of the other energy centres that connect you in support and security into the energy system of inner Earth - and thus it is done.

Thank you again for being present and bringing in that pure energy from Source Creation into the current existence manifesting upliftment and expansion.

I end this session now through the Omega Communications Portal. Thank you to everyone involved in the presentation of this through the images, through the software - all of those processes.

Love, light and joy

Lani
