Session 1050

Date: December 24, 2020, Thursday

Time 8.15 am

### **Omega Communications Portal Transmissions**

Lani speaking, welcoming you into this session of the inner journeys into the dimension known as the Station of Light.

As you begin, open your senses to acknowledge that you are here and perceive what is around you and who comes around you and perceive the energy that is already surrounding you.

This is how we begin today.

“Welcome indeed, Beloved, Orem addressing you and we draw you into this space today to continue the downloading of information to you - the energy systems that you have drawn to you because of your placement where you are in your locality and because of your intention that you wish to be free of the confinement that you may be experiencing in your locality and in the conditions currently surrounding the Earth. We acknowledge your intention that you are here to fulfill the purpose for your existence.

All of this is relevant as you come into this space. It is relevant to you. It is relevant to the steps that you have taken to acknowledge that you are already part of the Galactic Federation of Beings. It is as it were, an automatic inclusion, because of the intention that you have to be part of this Group, to be part of all of those Beings who continue to surround Earth to support Earth.

We bring to your attention the presence of a portal which is very active at the current phase of your existence located in the southern continent of the planet labelled Antarctica. You may be aware already of various facilities that exist in that space. We refer in particular to the areas that allow the presentation of other Galactic Beings to come into the planet in this area. This has received a greater activation which is why many of you have become aware of it and you may feel a direct pull to that area.

It is because of your awareness of the energy which is being channeled out from that area to different transitional lines of energy and information. There are channels that link up through various land masses and indeed through particular channels that exist within the oceans and deep within land formations.

They are not limited by space. They are not limited by densities that may be labelled heavy water or rock formations. The energy travels through every space and every dimension throughout the planet.

You will be aware that talk has been spoken about and groups have been gathering in different spaces that are known to be sacred spaces or energy vortex places. There are many more that have not been drawn to your attention, such as this space within the southern area of the planet, in this land mass known as Antarctica.

What is coming through into existence there is the recognition of the civilization, or of a grand city, that already exists. It has existed in a different dimension to what you know as your physical plane dimension. Because you have heightened your awareness, you have expanded your consciousness, your energy frequency now resonates into higher dimensional field existences, this has become known to you, of this dimensional existence centrally located in that part of your world. It also exists throughout other areas through the planet and the energy lines we refer to are likened to transportation lines of passageway. The passageway and transportation do not rely on your existing transportation units, but it will interact with your personal light body - your galactic energy system - which is likened to your energy sphere which is a transportation device.

You can be transported through the energy lines into other patterns of existence if it becomes necessary and when it is appropriate. This may happen as an automatic response, in response to what you resonate with, to what is required in those particular areas that your energy system can provide.

This is a continuation of our previous information to you where you were taking energy spheres into other localities, in different galactic areas. Well - understand from this, it can also relate to different galactic areas of civilisations generally located within this planet named Earth.

Yes - you are experiencing unfoldment into different dimensional existences.

You are only able to recognize them because of your expansion and allowance of your conscious mind allowing the connection into your expanded field of consciousness.

This is part of the enlightening of the planet as the overall intention as a planet of light. All of this is being revealed to you. You may feel it is being touched upon and recognized through other Beings who are facilitating information coming to you. Experience this as it is presented to you in this way. This helps you recognize what is being brought forward as confirmation through other facilitators, through other vehicles of the information being presented. The overall intention is to encourage you to step beyond what your upbringing has allowed you to experience and perhaps has programmed you to experience. As you step beyond that, you step into this field of light existence.

There are many concepts to that - concepts of what you call whole body constitutions, supporting environment, sharing of resources in a more generally supportive way to levels of society who are ready to participate freely in the interaction, rather than those who would accumulate and deny others, and others who would accumulate through methods that were not part of the light city civilisation. When you focus upon enlightenment, you are resonating with the concepts that exist in the civilisations of light.

It is a simple process. It is simple to understand. It is presented to you very simply.

Even though you have a complex system within your own intelligence, within your quantum intelligence, there are many systems in that. Again, there is the simplistic understanding of the whole concept, of the quantumness of you in the quantum existence.

Again, this is validating you, it is confirming you as part of this Galactic system of Beings.

In this session you have experienced entering into the state of existence in the Antarctica area through the transportation portals and this was the main purpose that was expanded upon, so now feel that you are present here in the transitional space of the Station of Light. All is present here. The existence of that city of the dimensional aspect of Antarctica is present in this space. It is all present within this Station of Light of Earth.

This is where you are, Beloved.  
We acknowledge you  
*Orem* out “

“Present here momentarily, I am one who has come to you at other occasions of these gatherings, simply known as a Starfield Being. This is because we travel and exist in different realities, through time, through existence, to observe you, to present you through different portals and to help you realise the importance of your experience currently. This will help you engage it fully within you.

And thus it is. “

This is Lani again and I thank the Star Being and Orem and I am aware of many of those ones we simply name Observers. We all have been known as Observers and continue to be in an observational role because that then allows what we observe to be received within the greater Galactic Federation of Beings.

This has been great to experience but it is now up to you to bring this back into your current awareness as being present on Earth fully engaged in your activities with an expanded sense of energy throughout you and around you. I feel there is a strong connection through the base energy of us, the lower energy centres of the body, connected into the essential base that we have been introduced to - the base in Antarctica. Perhaps you resonate with that - I resonate with that and it seems significant at this time as more energy is released through the clear passageways throughout the Earth grid - the matrix around and throughout the planet system. Light. It is all about Light.

With light love and joy I end this session through the Omega Communications Portal, from New Zealand which is, and was, together with many of the continents within this lower part of the planet, we were all part of one continent, so it is easy to feel that connection.

Thank you.

*Lani*
