### Omega Communications Portal Transmissions

Lani speaking to you, linking with you, wherever you are in your personal space. As you link with me, immediately switch into awareness of yourself as a Being of Light, strengthen that knowing, and then come through the open doorway and assemble with all of us gathered in the receiving area of the Station of Light.

Even though we call it the receiving area of the Station of Light, I have the perception that I am seeing the entire Earth from above and seeing all of us as if the Earth itself is the Station of Light. Do you see that, do you sense that, do you know that?

This is how we begin today.

“Entering into this dimensional energy sphere, Beloved, Orem coming forward to acknowledge you and greet you, we refer to you generally as Beings of Light as the Star Seeds. Indeed you will be familiar with that term.

All places of existence have been seeded by Beings from universal consciousness - from the original point of creation - and it was from that point that you chose to assemble in this moment of experience and you chose to position yourself in particular localities and that may include various other time dimensions and existences.

There is at the present gathering and the present experience, a linking in of many of the dimensional portals through consciousness. This is a reminder that there is no definition known to you in particular as time or place. It is all intersections of experience and at this time there is this conjunction all around you, all through you as an existence as a portal through which energy comes into you and through you. So, we are speaking about you as a Being who seeded the planet you are on from other star systems and this is a time when you have moved into the particular alignment which facilitates a more expansive expression of your Self and the expression of your Self is experiencing transformation. When we talk about Self, we are talking about your existence as a consciousness, as a dimensional field of existence. As such, your Self as a dimensional field of existence, consciously can envelop your body form, your locality, your planet, in this Light that is coming through this alignment that you have chosen to present yourself into, in this moment throughout experience.

If you perceive deeply enough, you may perceive your Self as you indicated your Self and presented your Self into different forms, all receiving this energy information you have chosen to bring in right now, in this presentation of your Self into this presence of the energy field.

All throughout these words there are spaces. Do you receive the energy within the spaces, between the utterance of the words? This is the importance of you perceiving and receiving, realising what these presentations have drawn you into as you find that you are part of the very fabric of existence and you have chosen to manifest within that and you have chosen to manifest certain idealistic patterns for your Self. Your choice as you experience all of this is manifesting in you and through you.

In previous gatherings we have reminded you that you can use this energy from the point of origin existence to detach from yourself certain programs that have existed in various layers of civilization that have been around you. So, at this moment take the opportunity to eliminate from the existence of experience of Self, all of that which does not serve you now and you would understand from that, that many of those aspects we refer to will have been perhaps keeping you at a certain layer of realization and thoughts and interference which subtly detract from your exact realization that you have been seeding the planet with the Light Energy and Information.

Would this give you a sense of fulfilment, understanding, perhaps completing a sequence of realisations you have had? All of this will allow you to move through that intersection and alignment of energy which allow you to step into the greater realization of this seeding of this planet. It may take you to perceive the Earth mass as it was formed, as it was seeded with the elements that would assist you as the particular form which adapted to the elements which were part of the composition of this sphere named Earth.

So, you brought into that, pockets of information, pockets of energy to assist you as you further seeded the planet and the opportunities now with you are becoming more apparent of the level of existence that you need to be expressing in the pure aspect of Light. We do not need to label those. You know already. When you step out of the layer of resistance and any form of limitation, you are that absolute Being that was the original existence of you as a pattern of light. In that way you perceived what was needed in different realities in different aspects of creation. Here you are.

Do you sense this as the beginning of a new cycle? Do you sense that the Earth itself and the particular system around its sun is changing and you are part of that change? You are manifesting everything which will help you to acclimatize to the change, because you are the change. This is you existing in a different formation of energy throughout you. Your Self is creating the formation. Your conscious Self is creating the adaptation to the energy which you are bringing forward. You will be assimilating this. You will be understanding it. You will be manifesting all of this. It is within you. It is a very clear connection you have in this presentation. We acknowledge this because we perceive it, we know it.

In the original presentation here in the receiving state of this Station you again are aware of the entire presentation of this Station of Light that you are within. You are part of all that is and you have many companions with you, some of you would recognize Councils of Light, some of you would recognize different star system patterns, some of you would recognize Star Elder Beings. It is all part of the quantum aspect of you and of what existence is. You have a very definite singular connection and interpretation as your Self orients itself back into the body of light presentation here.

Thus my message to you in this particular time experience is complete.

*Orem out* “

“We again come forward to help you harness all of this around you and within you. I am known as AnTur and I have been observing you through different portals through dimensional time and placement to be with you at this conjunction and to allow this to be a coherent energy field all around you. The planet could be referred to as mass, as an enlargement of a purified energy mass and so this is assimilating all of the pure aspect of existence in you and around you.

You are enveloped in our space here with much love and acknowledgement of you, for in effect we are one of the combined Federation of Beings, the Galactic Beings present.

I withdraw now  
AnTur out “

Lani with you again and as I take in a breath I am aware of all of us gathered again in this dimension outside of our normal physical parameters as we gather in all of this experience. Now feel that you are drawing all of this back into that which is known as the physical You - the Earth Being stationed on Earth - or, should I say the Star Seed stationed on Earth!

Did you experience a drawing out of you of patterns that may have been affecting you for a long time? I experienced this and it leaves me filled with a sense of happiness, of joy.

Bring this all back into you, experiencing it as you choose, and orient yourself back into your locality, the day, the time, even though you may sense all of that has shifted. The time we refer to is also part of the galactic orientation that we could refer to as time. It seems to undo a lot of mis-representation, mis-understanding and false teachings that have not quite come from pure Source because they have come through a pattern of the individual's mind and what they believe in.

This ends this particular session. Thank you for being here and I end this session through the Omega Communications Portal.

*Lani*
