Session 1053

Date: January 14, 2021, Thursday

Time 10 am

### Omega Communications Portal Transmissions

Lani speaking to you. If you are familiar with these sessions, you will remember I begin by asking you to identify yourself not as your physical body, but as a Being of Light, as a Star Seed, as a Galactic Being who has chosen to come into your particular body and to be present on Earth at this time.

As you identify yourself as that greater energy Self, then it is easy for you to be present in the dimensional field known as the receiving area of the Station of Light. You are more receptive, you are more perceptive in this state.

This is how we begin this session today.

“Welcome and greetings, Beloved. I am known as Orem and I am in the position of the oversight of this area of this Station of Light. This does include the planetary systems of this planet that you are situated on currently. We also have connections to many of the relative stations - planetary systems - because it is all part of one great energetic communication field and easily identified in your language as the collective Galactic Federation, or the grouping of Beings from other Galaxies and we are all continuing to support and uphold the inherent expansion of an energy system. Within that energy system, all Beings experience many forms of life, or situations, and most of us who come forward to assist you have gained collective experience which is shared with you as part of your expansion into a field of alignment and connection in a greater way in the unified collective consciousness field.

This is the aspect of Creation and in that Creation aspect it is all about clarification and receiving the energy patterns contained within Light - that word Light - and it is an energy that you naturally resonate with because it is from the prime origination point of Creation.

All of this, as you interpret the energy and integrate it when you allow that to occur, will be charging the particles of your energy system - the receiving aspects - and in that way you will be feeling you are being cleared and uplifted and this way it is easy to greet us, to be with us and to continue the work that you have of **seeding the planetary system you are within, with Light patterns.**

The patterns are encoded systems to initialize and activate and continue that activation of the expansion of many forms of support. Most of these of course are reflected in the creatures and in the plant life and in the water life and in the air that you exist in, which all supports the physical and emotional aspects and energy system entirely of that which is you as a life form, created to exist in those conditions.

Earth is continuing to adapt to the energy field it is bathed within coming through the solar portal from Source Creation. Therefore, you are constantly receiving that same energy field and this also is emanating from your prime point of origin. You might feel that this energy draws you through the solar portal to reconnect with all of the potential, with all of the abilities, with all of your knowingness and patterns for creation.

It is relevant to bring this to your attention in this way in this session because of the upgrades you are receiving in your energy field and thus it is upgrading the cellular condition of your physical body form. If you are experiencing symptoms of unease or out of order, the energy you are drawing through the solar portal at this time originating from your point of origin will be clearing you. Are you using it for that purpose? Are you using it to increase the new creations you are manifesting? Are you using it to enhance the energy field and energy matrix that surrounds and infuses the planetary organism? It infuses your organism, your energy field and everything that is within it.

We again draw to your attention many of the energy civilisations that are existing in the dimensional field which generally for most people is beyond their visionary and actualization of experience. Although it might be out of the actual field that they accept as real, there are aspects of them which completely understands and is already connected into the higher dimensional field which is resonating with the upgraded energy coming through the solar portal.

You will be recognizing of course - because you are a Galactic Star Seed Being - that you have support from other Galactic Star Seed Beings and groups. Collectively there is the one intention of support, expansion, so therefore, whenever you connect with or call out for help or support, if it is in accordance with the overall purpose, you will receive that energy and support. It is simple because it is part of the one consciousness. You are that.

This is the simple energy presentation to you in this session. This flows through you. This flows through all of the other sessions coming through this portal identified as the Omega Communications Portal. Every time you review any message you have received in any way from your perception in this moment, you are receiving more and in a greater sensation and perception of what you originally received through that first receiving of that particular energy transmission or message, through whomever delivered that message, whether it was through this particular portal or other portals. When you realise there is one consciousness and you move to the central point, the prime origination point, then you access the fulness and the rightness because you resonate with that original creation. You may find that it also will go through all of the information you have ever received in whatever way and therefore there is bringing into order and revealing what is behind what has been presented, if it had not been presented from the original point of Creation. It is necessary for you to identify that.

This clarifies to you, your perception as a Galactic Star Seed Being present.

Bring your attention now into the gathering point, the receiving area of this Station. You have delivered yourself into the appropriate energy information for you, in this expanded moment of consciousness. This is all appropriate for you in this deliverance and immersion.

*Orem out* “

“Into this space that you are surround in Beloved,  
I am simply addressing you as a Star Being.  
You may perceive the different energy that I bring  
forward to you.

It is the energy that you perceive and your response to that as you feel it which enhances what you have been receiving in this message today as you measure days and time.

You are seen as that Star Being. Recognize this yourself. It is.

I withdraw from you also, at this time. “

Lani again with you. Even in this state in the receiving area I am aware that I am balancing myself as I take in the energy and this directly connects you - it directly connects us all - back into our state that we recognize as an individual Being. That is important, because as the individual Being that you are, you are enhancing everything that is around you.

Take everything you received in this session as part of that energy that you resonate with, to clear or enhance in whatever way is needed as you were directed to do.

Thank you for receiving this in every aspect of you and I tell you now to bring it in, grounding it into the core energy of you, into every aspect that you know is your physical form, your physicality present in this Earth. It appears that the Earth welcomes you as this enhanced energy Being. Do you sense that? There is so much acceptance and joy in that, it fills me with that sense and I trust it fills you with that sense also.

This is a good way to end this session through the Omega Communications Portal.

Lani ❤️
