Session 1054

Date: January 21, 2021, Thursday

Time 9 am

Omega Communications Portal Transmissions

Lani speaking to you. Is this a special day? Even though we measure the day as this particular day, whenever you listen to/read these messages, you will be receiving the appropriate energy and information for you in that time experience.

So, as you let go of your surroundings as you receive this, close your eyes so that you do let go of the surroundings, then you are able to immediately be with us all in the gathering area of the Station of Light.

Are you with us? Breathe the energy of this into you, so that you are fully surrounded in the energy patterns of the Station of Light. You resonate with it because you are a Being of Light stationed in the Earth planet area.

This is how we begin this session today.

“Orem addressing you, drawing you deeper within, drawing you deeper within your central core of the essence that is you and drawing you deeper within this assembly area and within this entire Station, for you to experience being part of this elevated state of existence.

This is a term that you would use. It does not mean that you are elevated above everything and everyone with whom you associate. It is an energy elevation that we refer to. It is a state of your awareness that is elevated and heightened so that you comprehend more of your existence, more of the pattern of your existence, more of the experiences of your existence and in this way, you are more able to associate yourself into the deeper consciousness awareness.

This means you are accessing and integrating a greater field that is termed consciousness. We would also say it is part of the light field existence and the light field, as you have been told before and as you experience it yourself, is filled with patterns of codes. You might say they are photons which include aspects of creation. When you expand yourself further enough and deeply into those patterns of light you will see many different worlds and you will see that Earth is one of those worlds or dimensions of existence. You may also expand your perception and discern different areas that you have exposed yourself to in the patterns of creation.

All of this is an aspect of all that exists, so at various moments when you can channel your attention into various layers or aspects, you perceive these different worlds that exist. Surrounding it all is the pattern of light existence.

Bringing this back into you and the awareness of you being present on this planetoid named Earth, do you understand more of the reason of your presence, as you draw in that expanded field of consciousness around you and into all the manifestations on Earth?

You will also perceive that many of the manifestations are already surrounded in the extra-dimensional field referred to as the light city dimensional existence. It is in that level of existence that we function from. It is within that level. The Station of Light is a dimensional station of existence, but it is manifesting in the field of existence known as the crystalline light city dimensional existence. We are using many words here so that you can reframe your understanding and the reframing necessitates you opening the limitations to absorb the energy presentation of where you are present as you are receiving this.

There are no limitations in this dimensional field you have entered into. There is the constant presence of the dimensional Beings from many different galaxies and frameworks of existence and there are frameworks of existence because every world, or dimensional pattern, has the parameters that allow the manifestation of creation to exist and to expand. Therefore, there are different lifeforms, there are different planetary forms and Earth is one of those in particular that you were drawn into.

When you bring in your expanded sense of existence, and we again refer you to the energy coming through your solar portal, then you are receiving clarification. Understanding what is existing in the current civilization, you will also understand that clarification is needed in its many forms.

You will also see that there are many people choosing to play out a level of creation that they had engaged in most fully. There may have been many examples shown to you recently - how people engage themselves in very strong belief systems.

When you observe it from the oneness of creation and the expanded field that you are presently functioning in here, you also can see the availability of a greater field of existence without the limitations of belief. You would be observing from this presentation that many people are limited by belief systems. The belief systems may also be termed programming from civilisations or upbringing, or teachings coming from a limited belief system.

It is all a sense of experiencing. You have come to this point in the presentation from a series of your own experiences and the experiences already contained the expansion and the returning of you into the positioning as you receive the vital essence through the solar portal and the connection to your original point of existence.

We continue to bring this to your attention so that you fully integrate it. Then you integrate more of the realization of the work that your galactic companions are supporting you in and some of the positioning that you have been taken into in the galactic field of experience so that your energy field in its purest state will present that pure state into the civilisations. This is what you are doing in this current lifetime experience where you are.

We pause for you to assimilate all of this energy in this light that is presented through the words.

Are you allowing this to create the shift in you? There is the perceived need in you for this light field information to come in through you deeply into the energy matrix of Earth civilization. There are many pockets of civilisations you may refer to as advanced light cities that you will be resonating with and those fields of dimensional existences will be aware of your pattern and where you are resonating with and so there will be opportunities available to you for you to absorb what is within those dimensional light cities for you and the connections you have and you bring in so that you are receiving in that plane of existence an energy flow. It flows from that existence into you, from around you and back into that existence.

This is helping you to be more aware of those civilisations emerging, because of the expansion in consciousness. It requires you to be in a balanced plane of existence of your experiences and therefore you have available to you that higher dimensional field that exists alongside that from a pure point of existence and that is of the energy field you receive through the solar portal.

You may be experiencing the harmony and the harmonic resonance of that.

Bring that all into your awareness here because it is at this point that I withdraw.

Orem out “

Thank you, Orem. Lani again speaking with you and I am aware of the strong energy presence of those galactic beings in the starfield wherein the Council of Light exist who are overseeing all of this expansion. They identify the shifts, the changes, the intersections of consciousness and the vibration that this creates in the overlaying energy field around the planet and around you. It is that energy matrix often referred to.

Therefore, if you feel different vibrations in your energy field, understand it is because of the level that you are resonating with and your energy field of the physicality is adjusting to it. Then, as that resonance comes into balance, you are more functioning within that light field and the vibration will settle down and any disturbances in your body will come into an upgraded state of order and balance.

Now it is time for you to breathe in all of this and breathe it back into your body where you are receiving this - this body that you need to love and accept and fill with this light field you have received in this session.

Thanks for joining us all in this state and this ends this session through the Omega Communications Portal.

I also give thanks to all of those creators who have created the images that I use.
