Session 1057

Date: February 11, 2021, Thursday

Time 8.45 am

### **Omega Communications Portal Transmissions**

Lani speaking to you and I am aware of you linking into this state and place - a dimensional place. So beginning, just be relaxed, relax your mind and body and as you breathe in, allow yourself to identify with your body of light - that aspect of you that is the pure essential essence.

Now, feel that we are all together in the receiving aspect of the Station of Light. You are familiar with this and you are familiar with the shift that takes place in levels of your consciousness when you identify yourself as being here with us.

Be ready to receive as we begin this session.

“We greet you and surround you in the energy field in this space, Beloved. Orem addressing you and again enfolding you in what we referred to previously as the light field.

Immerse yourself in this field of energetic frequency patterns - the codes - which are relevant for you to receive in this space. Everything that you bring in with you in your thought patterns will be receiving the appropriate energy field to assist you. Primarily it is a function that disengages the aspects from you that you have collected in previous life experiences which are still impacting upon your energy field.

It is our intention always to assist you to reinstate the aspect of you that is the clear energetic Being who agreed and who chose to come into the Earth planet in particular at this time in this phase to initiate the higher activated energy fields of light codes. Those are that which anchors in the dimensional frequency pattern that many of you are choosing to identify with and to manifest.

We would remind you that this is a different type of civilisation which is not focused on your existing means of support, your financial systems. This energy field that is being manifested as the dimensional frequency pattern that you are bringing in with the light exists on the free sharing of information and full support. You would be realizing already that the housing provided is provided freely because it is recognized that your purpose of existence is to initialize and help fabricate everything that is necessary for you. It exists in the field of energy ready to be manifested.

Already this same field of energy exists around you in the present moment, so it is simply you recognizing that everything exists there ready for you to manifest around you in the field of light where you are existing currently.

It is simply that it is present with you now.

This encompasses mental needs, thought pattern needs, therefore your emotional needs are fulfilled and therefore the needs of the physical form and supporting mechanisms are fulfilled when you are clearly aligned into the field of light and this is what you drew in through the solar portal to be present here presently. You came in dimensionally existing in the pattern of light coming through the solar portal into the formation of your physical form.

This unites you in a different way to the initial field of light for your essence and this strengthens your awareness of that essence that is always there. That essence that is you activates the patterns that allows it to reconnect with that field of light manifesting now within you and around you.

Many of you are perceiving into other dimensional fields and perceiving what you might consider to be phenomena. It exists always. You perceive it when your energetic field matches the resonating energy field of what you are bringing into your vision.

Alongside this of course is your presence working with the Beings through the Station of Light and through other manifesting areas - pockets of civilisation - which some of you are drawing into and you know that you are clearly working, collaborating with those Beings as part of the formation and re-presenting of that dimensional existence into the present.

This is part of the overlaying energy field matrix existing around the planet. It is a field - an energetic matrix - containing many intersections, many spheres of existence and many patterns.

Within that, of course, are the manifestations that have occurred arising from which there are many more people becoming aware of the pattern of light and of the intersecting elements that sometimes are recorded by scientific instruments and sometimes these are recorded as coming very close to Earth. They are seen as perhaps interfering aspects of creation such as are labelled meteorites or some projectiles similar to that. Remember that everything has an energy field and everything can be presented to you in a way that you either react as if it is antagonizing you, or you react in a way that you see it is helping to propel you and uplift you into the field of light of understanding, realizing that you can use it as a clarification device and system.

This occurs naturally when you continue to align yourself with the energy coming through the solar portal. It in effect diminishes the effect of what exists as an underlying interfering pattern and you are able to elevate yourself into a field of light which is so powerful that you can select that which you would vibrate with.

So again, this is a different way of presenting the principles of existence to you. Another way of understanding this is that you have a clear pathway within that field of light. When you engage within that field this carries you forward in the clear pathway through whatever the circumstances are that are around you.

As this is presented to you, you will be aware that you are responding to this light all through your patterns of experience. This is the presentation to you in this session. Many of you are still aware of your presence with other groupings of Galactic Beings and in the dimension that they have drawn you into. You will be receiving patterns of communication individually in this way. This is a way to facilitate this for you and for you to remember the clear connection you have to communicate with the information that is necessary for you.

Bring all of this back into your awareness as I again bring your focus back into the receiving area where we began this session. This is entirely for you to realise the importance of you aligning yourself with that original light that you bring in as you in the ways that you can let that flow out from you in all of your existence in the patterns around you. We acknowledge you as you do this.

I withdraw now

*Orem out “*

“..and so the enhancement of the phase has begun. Ulea coming to you, giving you the support and the space to really absorb all of this into your conscious thought patterns and into the higher state of consciousness that is engaged in all of that activity and existence within that pattern of light.

Bring all of this into the reality of your presence in everything that you do. You are drawing back into you many memories of the potential and of the way that you engage with the light in the daily existence. We recognise that many of you work very well in the scientific field, in the intellectual training fields, in the ways of helping people and in the ways of just enjoying everything that you do.

Engage all of this back within your life now.

*Ulea out .”*

Thank you.

This is Lani again and I acknowledge everything that has been presented to us in this session, in this moment, with much appreciation to those Beings and also to you, as I recognise the value of you on this planet in this day and every day.

Again it is time to bring all of this back into your body form and allow the energy of light to instruct the body in a new way, in accordance with the dimensions of light.

Now bring your attention back into the present moment - that which we call Now.

I end this session through the Omega Communications Portal. Thank you,

*Lani*
