Session: 1094

Earth Date: October 28, 2021, Thursday

NZ Time: 8 am

Omega Communications Portal

This is session 1094 as we enter into the Station of Light, stationed with Earth, for Earth and it has always been here, it has always been part of our consciousness field.

Lani presenting this to you and to prepare yourself to move into that energy dimension, it is a simple process of taking in a conscious natural breath, and allow that to relax your body and your mind. On your next breath in, focus your presence into the receiving area of the Station of Light, as you move through the Omega Communications Portal into that space and place. You will be aware there are many others gathered here and you will be aware that their presence, their bodies are in many different countries and places and they all come together to support each other and to receive support from the higher dimensional field that we exist in. This is how we begin today.

“Welcome. Orem initially greeting you and drawing you deeper into the energy field existing here and there is the presence as you become aware, of many other Galactic Beings here, the presence of those identified as the Council of Light appropriate for you at this time. Also identified are the group of Beings generally called the Star Beings. All of us are here presenting you into a different energy matrix from that which most people are enveloped in around your planet in current experiences.

it is always about shifting your attention and your connection back to the pure energy matrix field, that field of Light, and this clears away from you many misconceptions, or many strong belief systems that are existing for other people.

Remember, everything you focus on, you are participating in the creation of that. Also remember that behind the physical appearance of what is presented is a higher energy matrix field. It is your choice to select the area that you want to connect with and connecting with whatever you choose, ensure that you connect with the very high frequency pattern of pure Source Creation. In saying this, we understand the many difficulties and many apparent restrictions that you physically are existing within. We also recognize and uphold your pure essence existing within this higher manifested energy matrix system.

It could appear to you as an energy grid extended far out beyond the energy field of planet Earth and the energy field of planet Earth is not that recognized as the atmosphere and the other overlaying layers around that.

We are talking about the consciousness field that is the living essence of planet Earth and so this planetoid that we often refer to as Earth - we refer to it as a planetoid because it is a combination of energy fields and therefore consciousness. So, when you extend your focus and consciousness into the greater energy matrix, you are strengthening that field of the natural energy field of the planet. Then, moving forward, that resonates with a greater field that is becoming apparent and recognized by certain scientific studies and examination. There is a very big connected dimensional creation that you are connecting into, you are strengthening it around you and in essence that is necessary for you as you continue to exist in the energy formation around Earth.

You have successfully become aware of this energy system we are referring to within you and while you are with us in this dimension, the energy effect of it is strengthening and supporting you on Earth and therefore anything that is not relevant for you, anything that has been introduced into your energy field in any way that is not in resonance with the higher activated energy light field, will simply disintegrate and move away from you, already clearing more aspects of you, bringing you forward in your essential energy field system.

This energy field system we are referring to now incorporates the natural elements, the natural sequences for all of the processes of your physical form which is manifesting the level of the higher energy field – changing elements and aspects of your physical appearance.

Bringing your awareness back now into an inner space within the Station, in the communication level, you again will be aware that this overlaying light field is continuing to receive pure energy information coming through the solar portal. This is a central access point, although at times there are other portals open to allow also energy and information to come in.

The energy and information coming through the solar portal has always been there in connection for Earth and the other planetoids in the system, so what was perceived by certain groups and individuals was manipulated to become available in some form, but when you step back into the original purpose for you and for the energy field of Light Station Earth, you are reconnecting back to the original pureness. This is presented to you in other modalities you may connect with and in other ways.

Remember to uphold your connection back into the original purpose and remember that you in essence are an expanded field of consciousness and you have all of the energy patterns that are needed as an individual to access and to implement in you and through you and around you, around all of the energy systems functioning on Earth at this time. Maintain that connection. It is relevant for you.

I withdraw now because there is the presence of that group of Beings from a distant galactic formation. We refer to them as Star Beings from the Starfleet presence existing.”

Orem out “

“We come and greet you again, to uphold your light field presence and we have connected with you in this level. Many of you will be experiencing a shift in your energy field you are experiencing here in this space. It is simply to allow you to infuse more of this energy into you.

Then, we expand your awareness into a dimensional existence that is available to you and it could be spoken about in your terms as the perfect civilization. Connect with that because the essence of it holds specific elements for you to engage within your awareness and these will synchronize different codes within your energy matrix field and in this way it is a strengthening energy field within you as you are present in the physical circumstances and this connects with many others who are vibrating on that same level that you are experiencing here.

This was what you drew into you through our presence. We support you in all of this.”

Thank you. This is Lani again, aware it is my energy presence here with us and suddenly we are back in the receiving area of the Station.

In my awareness this seems expanded as well and filled with more strength. It is like being out in the most beautiful flowering forest area – idyllic – and you feel the freshness, the energy, it invigorates and enlivens you. This seems to be the purpose of this presentation today, so now we need to bring this all back into our energy system existing as the human form. You do that easily and simply by taking in a conscious breath, letting it out and bringing yourself back into Earth time, into the present moment in Earth time.

Every time you step back into this again, you will be moving into an expanded energy field because each time, you absorb a bit more, you adapt to it, you integrate it within all of the mind, thought patterns and emotional patterns. That is just a reminder to you 😊

Enjoy who you are. Enjoy where you are and your life and always look for the great light energy field around everything.

This ends this session through the Omega Communications Portal. Again, orient yourself back into Earth Time. That means you are consciously connected from your highest point of existence into Earth existence, being a channel for that higher energy field.

Thank you. Thank you, Orem and the Council of Light and those Star Beings.
