"You are welcomed with us. Orem addressing you and allowing yourself to remember why you are here and how it is that you are here receiving information and energy in this particular method, in this particular pathway and way that has been created for you to participate in the awakening and expansion of consciousness.

You have worked in this way and presented yourself in this way into various evolutionary pathways, more than this particular and fundamental experience that you recognize as this one aspect of Self in the particular body form that you are using.

We are addressing you in this way as your pure essential consciousness. The consciousness that has come forward and entered this space time reality for many purposes, although there is one main purpose which is a continuous function for you to be present. This purpose we refer to is **to correct the timeline**, to correctly align yourself into the field of intelligent consciousness of Creation and you bring this in with you as you first of all observed the lifetime and the patterns you would be coming into and therefore you would be collecting and gathering in confirmation and streams of consciousness for you to connect with in your various stages of awakening.

Where you are in this moment you are again realizing many of those different aspects and the different levels of consciousness and energy fields that you are bringing in.

Also, you are reconnecting to various layers of the energetic matrix of consciousness that surrounds the planetary system that you are already familiar with.

Embrace the knowledge of this. Embrace that realization that you are a **Cosmic Being – a universal manifestation of consciousness** – and you are fully aligning with the body form and the various layers of experiences that are imprinted within and throughout the body form.

Remember, your cosmic intelligence – that level of consciousness we refer to – observes everything that has been experienced and as you allow it to manifest as you, then you are aware of the streams of energy coming through into the developing environment around the consciousness at present identified as this planetoid named Earth.

We are expanding your perception of what you have engaged with, what you are observing and the way that you observe other people are responding to influences. The influences which you respond to are the streams of consciousness – you might say the enlightened fields surrounding the energetic matrix around you and which you are bringing in to ground it, to manifest in the ways of existence being revealed, being brought to the surface again with new ways, new mechanics, and the mechanics are not just physical appliances and methods of working from previous levels of evolution. These are **bio-plasmic** types of structures and energy methods. These are being modulated. They are already in the enveloping consciousness of the matrix field. These are moving into the correct alignments to come forward through the consciousness of various individuals.

You are aware that many individuals will be utilizing the powers of creation to manifest the energetic structures required to bring in the **fusion** of many of the flows of energy that are available within and throughout this planetoid consciousness.

The First Principle of Life. Cosmic Being

Hello, Lani with you and assisting you as usual to open to receive what your infinite self – your cosmic consciousness – your pure energy, wants you to receive and is already helping you to step into the dimension where the Station of Light exists.

We now assemble within the receiving area in this Station of Light. Are you aware of yourself as a Being of Light here? Energy.

This is the way we begin today. Thank you.

Allow the new concepts and energetic constructions to come forward by your observation and perception. In that way as you allow them to come forward, more development and assistance will be received from the galactic spheres of consciousness – the support teams.

This is a major event and way of service that you bring in through your conscious intelligence through the cosmic aspect of you, ready to participate in the realizations, that is materialization of the concepts that have been coming through more profoundly recently. This is as the result of the **alignment of the consciousness field** of the planetoid and the consciousness fields of individuals with the pure life force that is the prime code of Creation.

This is enveloping you and as you realize that is in your consciousness field, your energy field, even as you are receiving this in your space, your intelligent consciousness field surrounding the different layers of density, or around your base unit on Earth, is also receiving it and participating in the balancing which allows the introduction of this higher manifestation field in accordance with **the first principle of life**. This is the prime intelligent creation and this is you, because you are a **cosmic intelligent Being**.

Bring this all into you. This is everything that you came into these sessions to receive. You may be responding to it in different ways. Remember that the cosmic aspect of you is ready to unify you into this prime source code for the creation and the revelation of what is already existing.

Remember this expansion of consciousness you are involved in.

We acknowledge you in your presence.

Orem out “

“Coming forward and speaking to you as the Collective Galactic Consciousness, this is to confirm the support you are receiving. Do not be distracted by individual lower level changes which may be coming into your systems. When you completely allow your Cosmic Self to be present as you as it is, then you are already working in a different field of consciousness, of support, of expansion.

You will feel this around you and within you, because it is a constant consciousness energy state within an altered dimensional state and it is part of your consciousness field.

Remember.”

Lani again with you speaking.

That was a group of Beings that I experienced as being enveloped in a magnificent field of light.

You will have experienced it in your individual perception so I will not try to describe it, because that might define it and limit it for you. It is your experience and your allowance of it to permeate and be integrated within you. This is a continual process as we still are exiting from the effects of the lower field and allowing the merging of the cosmic intelligent self to be present.

With this shift in orientation, bring it all back into you now, into the base unit, the body vehicle that you have and enjoy the different energy and realizations and communication this will be enabling within you.

I feel the communications and the link will happen more rapidly from this phase continuing forward within this light field. Thanks for participating in this with us all!

Now take in a conscious breath, remembering you are breathing in the energetic field you experienced – That Which You Are, and bring yourself back to orient yourself and connect it all fully into the physical aspect. This seems to go back to the initial root of existence of you, whatever that would be in your realization.

Now be aware of the time and place as we measure your existence with this Earth space time field.

This ends this session through the Omega Communications Portal.

Lani ❤️
