“Welcome and greetings. We surround you here from a greater dimensional field of activity and presence. We are presenting ourselves to you as a collective consciousness that many of you would identify as the starfield or the **Star Beings**. You will draw to you the images and information required.

We have come to surround you at this time. We surround you in the field of expanded consciousness in this gathering where you are presenting yourself as your **galactic cosmic selves** – your Being of consciousness. We are also surrounding you as your body form exists in your locality in the physicality and so you are receiving on multi levels already the information necessary for you. The information is an energy pattern to surround you and support you.

There are those of you present here, and others you may be aware of, who have been experiencing visitations from those of us in support and we are referring to those of you who in your early years as you grew in your body form, were surrounded by this same field of **galactic support**. This is to bring you all into the same focused intention, gathering all the aspects of you now that you have completed many phases in your experiences in life. The experiences have helped you to evolve to this point in consciousness where you are openly communicating with us. The purpose of course, is to enhance and to strengthen your **vital essence** and your vital presence.

You are aware you are surrounded by many crossing fields and intersections of energy and information that are deliberately implanted into the consciousness field around this planet which is in effect a limiting factor. You know this. We are here to remind you that you gather into your immediate focused presence here the essential elements from your original purpose and your point of origin. This is necessary to remind you of this once more, simply because of the increasing field of distraction.

We are here to remind you to come back into your point of focus into action and the action is to revitalize all of your energy presence. This includes the vital essence and the vital elements necessary for your physical formation so that you are able to accommodate and integrate the higher light field of information coming to you from beyond the Earth's atmospheric energy planes where you are aware of the gravitational fields that contain many fields of existence that support the natural formation of the planetoid.

You are always, and Earth is always, receiving the informational light patterns coming through your central solar gateway. You need to be reminded of this so you actively engage all of the receptors of your natural energy station – your personal energy station. You are the main receiver for the intelligent cosmic life that you are living here on this planet. We remind you that you have not always existed on this planet that you are inhabiting. We remind you to connect into the higher aspects of you that are now increasing your potential, the ability of you to absorb your potential and therefore you are revitalizing the essential elements of both your individuality and the entire higher consciousness field – that matrix of coordinated cosmic energy field. So, this is a very intense time again that you are realizing you are entering into.

You may have been experiencing the need for greater times for rest and that is your reminder, your cue, to reconnect to the important elements of creation for you. Revitalizing you.

Session: 1151
Earth Date: December 1, 2022, Wednesday
NZ Time: 7.15 am

Omega Communications Portal

Galactic Consciousness Present. Remember!

Inner journeys through dimensions of time and space into receiving energy and information through the Station of Light presented by Lani through the Omega Communications Portal.

Hello everybody. It is nice to greet and meet you in this dimension beyond all boundaries and freely existing and present in the consciousness field that surrounds every one of us.

Are you ready to come with me into the Station of Light? Is your body relaxed? Are you curious to receive the energy and information today, in a new way perhaps? Perhaps you are receiving in a new way. Collectively, we are existing in a great energetic field of consciousness – that cosmic matrix energy system. Present yourself now into the receiving area of the Station of Light.

There is the continuation of the activation of the inherent patterns within you ready to receive the higher light field. This is changing the capacity of the individual patterns within you to, in a sense, upgrade the sequences that are natural to you. This has been presented to you in other ways to remind you that you are engaging the higher elements of the natural encoded sequences that have regulated and upregulated all of the facilities that are incorporated in your beautiful natural physical structure, which reflects the energy field – all of the components of that, all of the codes.

When you are actively receiving all of those, you are communicating in a greater capacity to the entire field of consciousness that exists beyond what you call space-time, beyond any of that. It is a unified combined consciousness field of energy and that energy is strongly surrounding your current living form of the planet and similar planets that are going through the same experience of expansion and moving into a dynamic context in the various vectors of creation. Be aware of this. Be aware of the cosmic intelligent field visible to you in your night sky as patterns and connections – always existing there. There is a clear and very strong connection that is, has been, and will be activated in all of the connected field, the **matrix of consciousness**.

This will be having a stabilizing effect on you as the individual cosmic intelligent field, bringing it all into you as the cosmic intelligent Being and this is flooding the overall consciousness field throughout what you call the humanity in the civilization. **Respect this higher field – your cosmic beingness – present.** This is the **vital essence** that you are, that you have gathered in all of that pattern which was with you at the time of your birth into this current physical formation and has continued to be there. There have been fragments that you have reconnected with. Now you have fully reconnected and gathered into you all the potential, filling all of the components and aspects and areas that have been waiting for this interjoining, into the full connections.

As you take this into you now, in the many layers of your consciousness form, we withdraw. Remember that our presence, the surrounding light field, is with you to connect in with, at any time.

You are acknowledged “

“Thank you. This is Lani again with you as my individualness! I am aware of this great light field surrounding us. It goes beyond words in many ways, but you will be aware of it in your own receptivity as patterns, as images in some way, as a sense of the energy itself.

So this is a very powerful moment that you are receiving, that you have been ready for and you may be aware as I am, that this is flowing outward. It is as if you are an individual sphere of light and this expands and expands all around this planet until it is just a ball of very powerful enhanced light energy field – consciousness field – of the **cosmic intelligent systems**.

The vastness of it includes everything that we are aware of that we know as the milky way galaxy that we are identified as being within, and beyond that. Molecules of light. Now it is up to each one of us to realize this – to realize that we each are this powerful centre of this field of cosmic intelligence.

Be aware of this, always, as I now tell you and remind you that it is time to bring all your consciousness back into the present as we measure Earth time so that we anchor it fully into us and around us in this very strong energy field.

I think it is a reminder to keep our energy field strong around us, within us, throughout us and throughout our life pattern and this of course goes from this moment all through our life pattern back to our birth and therefore it goes into all of the ancestors and the descendants, again throughout what we measure as time and generations. It is a very powerful place of awareness for you to be experiencing.

Thank you. Take in a natural breath and as you let it out, bring it all through you into the present moment, being consciously present

This ends this session through the Omega Communications Portal.

Did you receive reminders in this session of events or experiences you have had in this lifetime when you have been aware of the greater presence around you reminding you that you are important and you are bringing in a higher light field of information? I feel I have been waiting for this most of my life. I feel all this energy is being experienced in me on a **sub-atomic** level, with nothing blocking the awareness of this **particle of consciousness**. A quantum physicist would have words to explain this amazing connection of star dust. I am sure this presentation will have resonated with you. Thank you.
