## Omega Communications Portal

### Declutter bio energy field

I am Lani presenting this session to you again. These journeys may seem familiar to you or they may seem new. It is all relevant to how you perceive yourself and

how you follow the channels of communication which might come to you in various ways and then you go through the sorting out process of what you resonate with. Therefore, to be with me today you are resonating with this form of communication and energy and information.

Be with me as we gather in the receiving area of the Station of Light. Focus your intention here with your intention to receive exactly what you need. Here we are again – perhaps continuing remodelling, or modulating the energy field around you. Be curious and open to receive. Thank you.

“Welcome. Orem presenting you into this space again and reminding you of your inherent potential to identify out of balance situations; also situations of harmonic resonance with your soul’s journey, with your soul intention. As you continue to expand your harmonic field, harmonizing all the situations around you, you become aware of the existence that we have reminded you is the reality around you, expanding beyond what you would normally see, touch, feel. Therefore, as you expand into the dimensional existence of you, you become enhanced because you more readily adapt to the streams of energy from Source Creation.

It is always about this and this is why it is always in the presentations to you as you experience the energy field here.

You are aware of the shifting energy fields throughout the planetary system of your land masses and the planetoid named Earth. You are also aware of the shifting patterns within the landscape of your physicality unit. Remember the streams of energy which your body may be expecting to receive and yet on some level there have been blockages or perhaps you might say some interference to the streams of energy.

Resonate always – have your intention always – to the pure streams of the energy field which is being processed and flowed through the central core of your galactic central position – the central sun that you are very familiar with that provides life, provides the energy field for you and the particular streams of energy now which are enhancing you again.

Therefore, as you listen to this you may be aware that you are not really in this dimensional construct within the Station of Light, but you are within and surrounded by the emissions through the solar portal. Remember, these are not what has been described to you in earlier years by the scientific community that these are harmful rays. We are talking about the energy field which you respond to, remembering that you are also an electrical – **bio-electrical unit** – and your **bio energetic field** is energy.

As we speak about this to you, become aware of the **energy emissions** that you are receiving. The purpose of this is that you will understand there have been fragments collected around your energy field simply because you exist in the reality of the civilization that everyone else is aware of. So, coming into a higher frequency pattern serves to **declutter your energy field**. Simple expressions are all that is required.

In one sense you could consider that everything that has been accumulated around your energy field that is interfering with the flows of the clear pattern of light frequency from the original creation, is being dissolved because you are receiving the streams of energy moving through the solar portal. As you keep your awareness of that, this will help you keep your energy field free and flowing and scintillating with light throughout your days and nights. Be aware of this simple process for you.

It is a re-membling for you – bringing back into you all the members of your energy field and consciousness. These are the aspects of your consciousness that have existed elsewhere and everywhere. You are re-membling your unique essence. You are re-membling the pure essence of your soul presence as a scintillating, glowing Being here.

Again, arising from this there is the new creation happening. Always focus on the harmonic resonating field that you have.

You resonate with the exact frequency pattern that you vibrate with and this creates the pattern around you. In many ways you might feel it instantly materializes around you as indeed, the reality of that dimension you are vibrating with exists around you, as you continue to maintain the integrity of your energy field very clear and strong. Your consciousness knows this. Your consciousness, that is your soul presence, knows this.

This also will be activating the pathways throughout you to enable a deeper connection in the processes to the other communities throughout the galactic community that are necessary for you to be establishing the vibrational frequency here on Earth.

#### **Earth is ready for the new aspect to materialize.**

New in the framework as you recognize it as something you have not been aware of physically. It is going to be appearing as new shapes for dwelling spaces and shapes that are moveable and can rotate with the rays of the light and can be relocated simply in the flows of the cosmic rays, the **plasmic field** that surrounds all civilizations and realities. We bring your attention again to the plasmic field – the **cosmic ultra-plasmic field**. This is necessary for many of you who have been feeling a distinct lack of energy within you, or motivation within you. This ultra plasmic field is like the motivation that has been turned on – activated around you and through you.

It is entirely your choice of focus and your intention for bringing this into you and that intention will always be within your pure soul connection. You are receiving this now. You are communicating in the *soul-ar* level with this prime ultra plasmic field.

In one sense this is re-assembling you as you remember it and you bring it all within you.

You may feel you are being **trained** for this and indeed, the training is simply reminding you of who you are and why you are present in the locality where you are currently.

Be open to observing confirmation of this through other channels, through other sources that you receive.

Peel back the layers of fear and confusion that will be distributed in an attempt to interfere with this expanded field of existence.

Remember the core energy essence of you is the core energy essence of creation. We affirm this in you.

I withdraw now.

*Orem* out “

“I am Ulea with you again and I am very pleased to acknowledge that you have reached this point in your consciousness to accept this energy process that you have received in this session.

It does expand on the other information patterns you have been receiving. This is a deeper activation of your connections and your presence.

I am assisting you to realize this and I now assist you to bring all this back through the multiple fields that are you, back into your current locality of your physicality. I am with you in this.

*Ulea* out”

“This is Lani again with you and I acknowledge Ulea and Orem and all the collective Beings around us at this time, around you wherever you are and whatever is being experienced in your land mass or your location and neighborhood.

There has been this very powerful awakening of us and that has been necessitated to activate the core energy essence of each one of us here on Earth. So, take this moment to feel the passion within you to be truly this Being – they referred to it as being a Soul-ar Being – which is very interesting – with the energy of the solar patten coming through the Sol / the Sun gateway,

Take it all into you, bring it in from above your head from that greater expanded field of consciousness, right deeply into all layers of you, all the pathways and processes, right down to your feet upon the ground.

There is a sense of excitement in me as I recall some of the information received today and you also have received this, so thank you.

This ends this session through the Omega Communication Portal. Do share this information to support everybody and it might awaken more people to what is inherent within them. It is all fascinating and in alignment with the pure source of creation. Thank you.
