Observer or Participant? Elements of creation. Shifting

Hello, Lani welcoming you again into this space and in this space remember you are addressed and recognized as a Being of Light Energy and Information. This is what

you are doing by being present in your physical body form.

Again, as we begin, exclude disturbances from around you. Exclude the noise of heavy rain you may hear in this recording or perhaps peals of thunder. Exclude all the living disturbances while you are listening to this and move within the consciousness field of you – the pure energy. So, whether you are a participant in these gatherings or an observer, just come with me and be within the Station of Light, in what they call the initial receiving space and state of awareness. This helps you to identify the energy field of this space and to present

yourself into it and stabilize yourself here, ready to receive the pure flows of energy and information.

“We are with you, Beloved. Addressing you through this voice I am known as Orem. You have already begun and received the new phase. It is an extension of what you have been aware of recently around you in **changing elements** around you.

We speak about the **elements** of the structure of your living space. We speak about the elements of your living space within the body form and around the body form and we speak about the structure that you may be aware of which is changing in civilization. We also speak about the changes in the areas of the higher enlightened, the higher connected areas within and around the planet. Those which we speak of are connected always and into the higher plane dimensions which you are immersed within as you enter these transmissions of energy to you. It is layers of frequency, patterns of frequency and the **frequency patterns** of course incorporate all the elements necessary for the structure of the higher field existences – the realities that you would choose to be creating within. Remember, what you have created and have become aware of now in the higher field of existences, you, from another level of your soul experience, created those, ready for you to connect into in this time.

Be aware there has been **a turning and a shift** in many of the energy patterns affecting you and this is as a result of you connecting into the pure base **elements of creation**. The elements of Source.

The energies of creation and these are all energy systems that are very relevant to your present existence which, as we have said, is shifting.

Where are you placing yourself? Are you aware of shifting your perception into seeing the patterns of fields of light, the codes, the particles which are those patterns of light, and are you aware of many of those individual particles such as you are, connecting into the field of creation of existence?

This will help you maintain your balance within the present circumstances and experiences and from the balancing of those, you are lifting yourself up into the first principle of your existence. This is the purpose for you as a vessel for the light energy and information in your unique way. It is all connected in the particles of the energy field matrix of the galactic consciousness field.

We put this to you in many ways. In this session we bring your awareness into the process of movement and shifting through the layers that have continuously been presented in an attempt to block the shifting and as a **failed attempt to limit the expansion of consciousness**. This can be referred to as the **awakening of the pure life force of the soul** in individuals. The soul, as it first entered into existence, is and was pure. It still is pure. As you access this within your core energy essence of your Beingness, then you unlock more of those **initial codes of self-sustaining and replenishment** that are part of the soul presence and part of your original coding. Every time we mention these phrases and words there is the expansion of the free-flowing patterns throughout your systems of experiencing life as a physical form.

You see, as you realize this, you realize you are the galactic presence existing as individual soul presences and connected into the different portals of existence beyond your central sun. It is appropriate to remind you of the connectiveness throughout creation as the creation appears as different galactic fields of existence.

This is part of the shifting of your perception, the expansion into the greater consciousness field that is naturally you.

Now become aware as you participate in this revival of the initial codes and presence of the soul, that you are in the company, in the presence of the galactic field of Beings. Souls present. Through the communication matrix of these souls, you receive the energy which activates many of your creative impulses. Bring these to the fore in your experience in your awareness of what you are capable of creating and bring forth into the life pattern.

This aspect is enabled following previous transmissions to you within the gathering where you have been releasing the appearance of limitations and intrusions affecting your energy field. They are minor. They had left in many instances around you an imprint and the imprint is easily dissolved away within the higher field which you are accessing and have allowed to be part of your energy field. It is always about you and your soul presence. This is what radiates from you quite naturally through your energy field. Your energy field has become strengthened as it had become clearer of those patterns that had been affecting you and some of those patterns were simply an imprint of people placing thoughts around you.

Those are what are referred to in many instances to you as extraneous imprinted matter. **Clear the imprint** and come back to the original print of the original code for creative existence and this includes the original intention of the creation of the planetoid that you have come into, participating in the movement and shift.

Many more of you have entered into the realization that you are here taking part in the shift, witnessing it, observing it from multi levels of your dimensional existence, but always there is your soul present, participating in this. You can rejoice that you realize this and the realization of it means that you accept yourself as this Being present, your Soul being present, beautifully presented through the vehicle

of you. Therefore, to maintain your presence, absorb the higher elements necessary within the codes of the creation of the physical form.

We present this to you in a sense of it was appropriate to bring you into this consciousness field now because of the changes that you have become aware of and you have been working on this. You have been working to allow the conscious self to be aware of the expanded consciousness aspect of you and all the elements that come forward because it is appropriate now to connect with the aspects of your initial soul presence – the pureness of it.

Thus it is. You Are.

This is all contained in this presentation to you
and thus I withdraw now

Orem out “

“Acknowledged, Orem, from my Soul presence, speaking as Lani again, coming back to being aware I am with you all in this gathering.

I feel it is above the level of the earth-plane, if we can identify it as that, in this amazing gathering of souls, this intergalactic presence. We are all here together. Remember as I began, if you simply are observing it and yet have not moved into participation of it, you are still receiving it and still processing what is around you in the gathering. There is a reason that you have been drawn to become aware of this energy system presented in this way. You are acknowledged. Everyone is acknowledged here participating in this.

It is now appropriate to bring your awareness back to the earth-plane, to the physical body. As you do that, you may be aware of the shift that is and has been occurring, even throughout the cells of your body form accepting the basic elements of creation – the energy of them - necessary. This is a reminder – be aware of the food you eat and the energy of the food, the energy of the basic elements that are provided – the natural food that is provided and grown on this planet. It has the energy that your body is tuned up with.

Now, as you take in your next natural breath, be aware that all the energy systems of you, your soul, is connected firmly within this physical body form of you, the physicality of you in the locality, strengthened in every way. Again, I thank you for being part of this and for sharing it, just by being You – a soul on this planet at this time.

This ends this session through the Omega Communications Portal.

Lani As I engage the energy field with you, I am assisting you to bring this back into your physical field unit based on Earth.
